📍 Belgrade, Serbia / B2B worldwide

Backend Developer with 2+ years of commercial Python experience building healthcare SaaS products. Specialized in asynchronous systems, third-party integrations, API development, and AI-powered workflows. Experienced in owning features from requirements analysis through production support. Holds a Master's degree in Computer Science.

STACK: Python 3.12

AsyncIO, APScheduler, Celery

FastAPI, Django, Pydantic, MyPy, Pytest

PostgreSQL, Redis, S3, SQLAlchemy, Alembic

REST, OpenAPI, WebHooks, WebSockets, JWT, OAuth

Git, GitHub Actions, Docker Compose

OpenAI API, Tool Calling, RAG, Codex/Claude Code

WORK EXPERIENCE

[MIEA Health](#) *AI-assistant for Singapore private clinics*

Backend Developer (remote) 07/2024 – present

Development of **async** business logic, **FastAPI** APIs, and **AI workflows** using the OpenAI API. Own the full development lifecycle, from requirements analysis and estimation to testing and deployment. Handle production incidents, troubleshoot customer issues, and maintain overall system reliability.

- Delivered **400+ product enhancements** used by clinic staff and patients.
- **Integrated** 4 Clinic Management Systems via REST APIs through a unified Strategy Pattern-based integration layer.
- Contributed to migrating a monolith to a **Celery**-based distributed architecture.
- Developed **AI tools** serving thousands of patients monthly.
- Reduced app response time by 40% through code and **DB optimization**.
- Implemented JWT-based authentication, OTP, and **OAuth 2.0** sign-in.
- Led a 6-month data model **refactoring initiative**.

[Filegaroo](#)

Volunteer Backend Developer (remote) 04/2024 – 06/2024

- Developed an automated **Pytest** test suite (120+ tests) and established CI pipelines with GitHub Actions to improve deployment reliability.

[Hexlet, Yandex, etc.](#)

Professional Retraining 05/2022 – 05/2024

- Completed **two years** of comprehensive backend engineering training to transition from telecommunications into software development.
- [Portfolio project](#): **Django app**, PostgreSQL scheme design, complex DB queries, query profiling and optimization, TDD practices.

[Information Technologies CJSC, later Asteros Group](#)

Senior Pre-Sales Engineer (office) 2003 – 2011

- Designed **VoIP** solutions and call centers for leading fintechs and telcos (T-bank, VTB, Megafon).
- Mentored colleagues, brought new tech experience to the company.

EDUCATION

University:

- **Master's degree in Computer Science.** Moscow Engineering Physics University. 1998 – 2004

Competitions:

- Contest “**Algorithms and Data Structures**” by Yandex - in top 300 out of 6000 2024

SOFT SKILLS

Strong ownership and accountability for deliverables

Autonomous execution of long-term initiatives

User-focused problem solving

Cross-functional communication and teamwork

English: B2 spoken, C1 reading

Employment: B2B contract / Authorized to work in Serbia
