📍 Belgrade, Serbia

Reliable and collaborative software engineer with 2 years of experience in FastAPI and Django development, a Master's degree in Computer Science, and a solid telecommunications background.

STACK: Python 3.12,

FastAPI, Celery, REST

Pydantic, MyPy, AsyncIO, Alembic

PostgreSQL (postgres), SQLAlchemy, Redis

Pytest, Postman

Docker Compose, GitHub CI/CD

WORK EXPERIENCE

MIEA Health

Backend Developer (remote) 07/2024 – present

AI powered chat bot for Singapore private clinics.

Responsibilities: development of **FastAPI** APIs, business logic, and AI-powered tools using the OpenAI API. Managed the full feature development lifecycle in an **async** environment, from implementation planning and estimation to testing and support.

- Delivered **400+ features** actively used by end users..
- **Integrated** 5 external Clinic Management Systems via REST APIs, unifying them through a Strategy Pattern–based service layer.
- Improved page response time to 300 ms by **optimizing queries** and DB indexes.
- Planned and implemented a 6-month data model **refactoring** initiative.
- Migrated internal services from APScheduler to **Celery**.
- Implemented an **OAuth 2.0** flow for Google Calendar integration.

Filegaroo

Volunteer Backend Developer (remote) 04/2024 – 06/2024

- Developed **Pytest** test suite, implemented GitHub CI pipeline.

Hexlet, Yandex, etc.

Student 05/2022 – 05/2024

- [Portfolio project](#): **Django app**, complex (20+ lines) DB queries, query profiling and optimization, TDD practices (140+ tests).

Mountain Guides Association

Avalanche Educator (hybrid) 2017 – 2022

- Translated [4 books](#), bringing new ideas to the professional community.
- Managed teams of 4-8 people and mentored colleagues.

Information Technologies CJSC, later Asteros Group

Senior Pre-Sales Engineer (office) 2003 – 2011

- Designed VoIP solutions and high-end call centers for **leading fintech** companies and mobile operators (T-bank, VTB, Megafon).
- Mentored colleagues, brought new tech experience to the company.

EDUCATION

Competitions:

- Contest “Algorithms and Data Structures” by Yandex - in **top 300** out of 6000

Courses:

- [Algorithms and Data Structures](#) hands-on training. **Yandex**. 2024
- [Python Developer specialization](#). **Hexlet**. 2022 – 2023
- [Introductory Python](#). *University of Michigan*. 2022

University:

- **Master's degree in Computer Science**. Moscow Engineering Physics University. 1998 – 2004

SOFT SKILLS

Reliability, Attention to details

Strong planning and self-management skills

Friendly communication and successful teamwork experience

Commitment to continuous professional development

English: speaking B2, reading C1

Employment: B2B contract / authorized to work in Serbia
